

PARTS PRICE LIST

APRIL 2015

INSTRUCTIONS FOR THE USE OF THIS PRICE LIST

Use the Boiler Parts Index to locate the proper page number. The index is listed by both the type of part and the control manufacturer. Parts unique to a certain boiler are listed by their boiler series number (101, 102, 103, 104, 105, 201 or 210). When ordering parts, please include the Part Number and if unique to a certain boiler, please include the Boiler Serial Number and Model (or H.P.). The Heating Surface which is different for each Boiler is listed in the Parts Price Sheets and is another good way to confirm Boiler Size.

When ordering parts for a Boiler Series, consult the Factory for Pressures above 150 PSI. All Standard Boiler Series Parts are suitable for 150 PSI unless otherwise marked. There is an extra charge for higher pressures.

NOTE:

* This denotes a Code 1500 Price and longer Delivery Time.

XX This indicates that additional information is needed to order this specific part. For Instance, orders for boiler cabinets or lids should include vent collar size which may vary with Draft Hoods or Barometric Dampers, Specially Set Safety Valves require the desired Pressure Setting, Steam Boiler Inserts and Hot Water Tube Bundles require the old Serial Number, Model, Fuel, MAWP and Trim Pressures, etc. The Boiler Serial Number can help to identify these parts correctly.

When ordering a Drum, Tubes or Cabinet provide the Serial Number and specify if replacement is for an L-Model boiler.

This Parts List contains most of the popular components, parts and accessories that are available for our product. It does not contain many common hardware items such as nuts, washers, pipe and fittings which can be readily purchased locally.

FREIGHT TERMS:

All prices are F.O.B. Los Angeles Factory and packaged for domestic shipment. All goods received should be carefully examined before acceptance from the carrier. For all small items, our normal means of shipment is via regular UPS with the charges prepaid and added to the invoice. Larger items are shipped by Truck, Freight Collect. Should you wish an alternate means of shipment, you must advise the Factory at the time you place your order and may be subject to a special handling charge. Small shipments below \$100.00 Net Price are subject to a \$6.00 handling and packaging charge in addition to normal freight and insurance charges. All C.O.D. shipments are subject to a special handling charge.

All UPS orders received after 1:00 PM (PST) will be processed on the following business day.

(MINIMUM PURCHASE ON ANY ORDER IS \$30.00 LIST PRICE)

(Prices shown are for cash purchases.)

(All prices Subject to Change Without Notice)

STANDARD CONDITIONS OF SALE

1. TERMS OF ACCEPTANCE

The acceptance of this order shall be upon the terms and conditions specified herein which shall take precedence over and represent the final agreement between Buyer and Seller. Any inconsistent, contradictory or other and further terms and conditions contained in purchase order or other document furnished by Buyer in connection with the order, shall not be binding on Seller unless accepted in writing and signed by an officer of the Company.

2. PRICE

All prices are subject to correction to Parker Boiler Co. current published prices. Orders delayed or held at Purchasers request will be subject to price in effect at time of shipment. Prices shown herein supersede all prior Quotations.

3. TERMS

Standard terms are "C.O.D." unless an account has been established and maintained for "NET 30 DAY" terms. Overdue accounts are subject to a late payment charge of 1-1/2% per month.

4. PAYMENT

Payment shall be due according to the price and terms on the invoice. If alterations or changes are made at Purchaser's request, such must be approved in writing and for the additional cost involved.

Should Purchaser fail to make any payment when due, make a general assignment for the benefit of creditors, or any bankruptcy, insolvency, arrangement or reorganization proceeding under the Bankruptcy Act be commenced by or against Purchaser, then Parker may, at its option, declare all sums unpaid immediately due and payable or may without notice or demand, by process of law or otherwise, take possession of the secured property wherever located. Buyer shall pay any collection fees and reasonable attorney fees incurred by Seller in collecting payment of the purchase price and any other amounts for which Buyer is hereunder liable.

5. TAXES

The Purchaser shall pay in addition to the purchase price, the amount of any excise, sales, privilege, use or any other tax, local, state or federal, which is payable present or future, applicable to the sale or use of the equipment hereunder.

6. SECURITY INTEREST

A security interest in and title to the equipment sold hereunder shall remain in Parker Boiler Co. and such equipment shall remain personal property until fully paid for and Purchaser agrees to perform all acts which may be necessary to perfect Parker's security interest in such equipment including executing a financing statement.

7. DELIVERY

Exact date of delivery is not guaranteed, but will be approximated as nearly as reasonably possible, and based on then existing conditions. Parker shall not be liable for any loss, damage, detention or delay resulting from causes beyond its reasonable control. Receipt of the equipment by Purchaser on delivery shall constitute a waiver of all claims for delay.

8. FREIGHT & RECEIPT

All prices are F.O.B. Los Angeles Factory and delivery to the transporting carrier shall constitute delivery to the Purchaser. All goods are shipped at Buyers' risk and shall be inspected at time of delivery with notation made of any damage on the original freight bill to assure prompt settlement of claims. Holding or storage will be at Purchaser's expense and risk.

9. CANCELLATION

Cancellation before shipment by Purchaser must be made in writing and accepted by Parker. Cancellations are subject to a charge depending on equipment and costs involved.

10. RETURN GOODS (NON-WARRANTY)

No material shall be returned without Authorization. Return material must be shipped Prepaid. Collect shipments will be refused. All Goods that are ordered in error and then returned, are subject to the applicable handling charge. Consult Factory for a Quotation on the return of Boilers and Manufactured Products. Brand new standard parts in their original cartons that have not been installed, are subject to a 25% (minimum \$10) Restocking and Handling Charge unless returned due to a factory error. Materials which are obsolete or made to special order are not returnable.

11. LIMITED WARRANTY

Parker Boiler Co. warrants to the original user that those products supplied by it and used in the service and manner for which they are intended shall be free from original defects in materials and workmanship subject to conditions herein stipulated.

The boiler pressure vessel is covered by a 25 Year Warranty against damage caused by thermal shock during all normal operating conditions. Main Boiler Components consisting of drums, tubes, headers, cabinets and atmospheric gas burners are covered by a 5 Year Pro-Rata Warranty (Coverage decreases 20% per year after the first year). Tanks, Heat Exchangers, Softeners and other components are covered by a 1 Year Warranty. Pumps, Valves, Trim and Controls manufactured by others are covered by a 1 Year Warranty provided that the original manufacturer will replace the item under their Warranty. Normal Maintenance Items such as gaskets, water gauge glasses, rubbers, pump seals, pump tubes and accessories, etc. are covered by a 90 Day Warranty. Normal tightening of water gauge glass nuts, gaskets and pipe fittings is not considered Warranty. The effective date of the Warranty shall be the time equipment is placed in operation but not to exceed 3months after delivery unless Manufacturer is notified in writing and agrees to a later date. The standard Warranty excludes field labor and freight charges.

This Warranty covers only original defects and does not cover replacement of parts due to normal wear or resulting from scale, corrosion, rust, electrolysis or deterioration due to a bad water condition or improper care of the equipment. This Warranty will not apply to any products subject to misuse, neglect, or damage or to any products repaired or altered outside of the Manufacturer's factory. The Warranty will not apply to any product not properly installed and operated to Manufacturer's recommendations in compliance with all applicable Codes.

The responsibility of the Manufacturer under this Warranty is limited to repairing or replacing at its factory or other destination at Manufacturer's option, any defective product returned transportation charges prepaid. The Manufacturer shall be sole judge in determining if the product returned is defective. The Manufacturer is not responsible for any field labor charges incurred in the removal, disassembly or reinstallation of any product. The Company is not liable for any loss, damage, cost of repair or consequential damages of any kind in connection with the use, sale or repair of any products or parts.

This Warranty is in lieu of all other Warranties, expressed or implied and any or all other obligations on its part, contractual or otherwise. No Employee, Agent, Distributor or Dealer shall have the right to modify or change this Warranty without written authorization signed by an officer of Parker Boiler Co.

12. WARRANTY RETURN PROCEDURE

Materials that are considered to be defective and within the Warranty time are required to be returned to the factory within ten (10) days after replacement and accompanied with an RGIT "Returned Goods Identification Tag" properly completed to facilitate prompt and correct handling. Be specific and explain the reason for return, explaining the problem rather than saying "Defective". The part must be returned prepaid, as collect shipments will be refused. Any materials replaced beyond 30 days of service must have absolute evidence of original defect.

Replacement materials considered under Warranty are to be invoiced directly to who orders the replacement part. When the original materials are received at the factory, after review, the applicable Warranty Credit will be issued. Outgoing Air Freight Charges are never considered for Warranty Credit. Materials not promptly returned within 30 days after replacement are not subject to Warranty adjustment by the Manufacturer, as it is not possible to obtain any Warranty consideration from the original Manufacturer unless promptly returned.

13. SPECIFICATIONS & TRIM

Parker maintains a policy of continuous improvement and, therefore, reserves the right to change specifications or trim without notice.

14. LIMITATION OF LIABILITY

Parker's liability on any claim of any kind including Warranty, negligence, for any loss or damage arising out of, or connected with, or resulting from this contract, or from the performance or breach thereof, or from the manufacture, sale, delivery, resale, repair or use of any equipment covered by or furnished under this contract shall in no case exceed the price allocable to the equipment, part or parts thereof which give rise to the claim. In no event shall Parker be liable for any special, consequential or incidental damages.
